PROFILE

Information Systems specialist with strong technical foundations and hands-on experience in data analysis and web development. Skilled in designing and building user-focused applications that utilize data to deliver practical and innovative solutions. Experienced in both frontend and backend development using technologies such as Python, Selenium, React.js, and MongoDB. Recognized for adaptability, problem-solving, and a commitment to delivering high-quality results. highly interested in API development and creating efficient, scalable system integrations.

EDUCATION

B.Sc. in Information Systems, Prince Sattam Bin Abdulaziz University (PSAU)
Graduated: 2025 | GPA: 4.32 / 5.0

PROJECTS

Pathly - Smart Career Pathway Analytics (Graduation Project) Python · Selenium · Excel · MongoDB · APIs · React.js · Node.js · TailwindCSS · AI Concepts Developed an AI-powered web platform to guide students and professionals in exploring personalized career paths. Analyzed LinkedIn data to uncover trends in hiring, skills, and career growth. Built a responsive frontend with React.js and TailwindCSS, and a secure backend using Node.js, Express.js, and MongoDB. Integrated APIs and AI logic to deliver smart, data-driven career recommendations	09/2024 – 05/2025
Exploring Car Characteristics & Performance Python · Pandas · Excel · Data Cleaning · Visualization · Statistical Analysis Worked with a dataset of over 800 vehicles from the GCC region. Cleaned and processed data, then applied statistical modeling to identify how attributes like horsepower, fuel economy, and engine capacity impact performance. Delivered clear, visual insights through charts and graphs	01/2024 – 05/2024
Citizen-Government Communication App Project Management · UI Planning · Risk Management · Stakeholder Analysis Led the planning and design of a centralized platform aimed at improving communication between citizens and government entities. Defined the project scope, user roles, and interface structure. Included risk analysis and project lifecycle stages (from planning to closure) to ensure feasibility and user trust	01/2024 – 04/2024
Career Counseling App Flutter · Dart · UI/UX Design · Modular Code Architecture Built a mobile app to guide students in choosing careers based on their major. Designed interactive features for selecting a field of study, viewing top careers, learning key skills, and accessing curated resources. Ensured smooth navigation, responsive design, and scalability using modular architecture	09/2024 – 12/2024

EXPERIENCE

Intern, EJADA Systems • Built and tested ASP.NET Core Web API with Entity Framework and SQL Server for a Student Management System. • Designed simple UIs with ASP.NET MVC/Blazor and validated endpoints via Postman.	06/2025 – 08/2025 Riyadh, Saudi Arabia
Junior Integration Developer, EJADA Systems • Completed Google Cloud Apigee Training in API Design and Fundamentals, API Security, API Development.	09/2025 – Present Riyadh, Saudi Arabia

TECHNICAL SKILLS

• Data Analysis	• API Integration & Database Management
• Machine Learning Fundamentals	• Web Scraping
• Web Development	• Project Management

SOFT SKILLS

• Teamwork	• Adaptability
• Critical Thinking	• Problem Solving
• Time Management	• Attention to Detail

LANGUAGES

• Arabic	• English
